

Consult Your Community

Boston College

Dear Mr. Cammon and Team,

In representation of doDOC Corporation, I want to thank you for the time and dedication that you and your team have put into researching and collecting extremely useful information for my company. I am absolutely convinced that the insights that your reports have brought to our attention, will have a long lasting and extremely positive impact in the future of doDOC.

After meeting with you, getting to know your team, observing the way you collected and carefully curated information from diverse sources, I can say without a doubt that you have worked as a team of experienced consultants. You started with a set of requirements provided by doDOC, and you found a way to specify very well defined milestones, which included reports on competitors in the regulatory documentation field of life sciences, investors & investment strategies geographically and timely stratified, and market sizing for the main submarkets in the United States as well as for other countries.

Each milestone was very well organized, addressing one or more of the specific requirements defined at the beginning of this consultancy. Your team showed highly valuable skills to assess the validity and consistency of the information collected, and you put it in a format that immediately supported our management processes.

I look forward, Mr. Cammon, to seeing you and your team succeeding in your professional careers, as well as setting a precedent for future classes of students that will be part of the Consult Your Community program. You have set the bar extremely high for those to come, and you have certainly showed that teams like yours can help companies find solutions to market, management and fundraising challenges.

Again, thank you for your time and hard work.

Sincerely,

Federico Cismondi

Chief Executive Officer
